Experience

since September 2021
UI/UX Designer at [RightOnTrek](#)

Built interactive prototypes with Figma and Principle. Prepared layouts for frontend developers. In collaboration with other designers developed design system.

June 2020 – September 2021
Designer at [chefbaity.ru](#)

Developed brand for food delivery service. Designed most of communicational materials such as Instagram templates, print and banner ads, wall cling, flyers, and handouts. Built website with CMS, which made A/B testing as simple as possible. Designed mobile application and UI kit for future updates.

February – May 2020
Graphic designer at Central Bank of Russia (practice)

During student practice I was working on redesing of Intranet parts. Developed presentation templates and printing materials. Took part in indoor conference branding development.

Other projects

👨🏼‍💻 since June 2021
Co-founder of educt.ru

👨🏼‍💻 December 2020 – April 2021
Communication designer at HypeFactory

Pet-project that turned into small startup. I was working in custdev, built a design system and created user interfaces for all parts of the service, mostly for desktop.

Developed highly critical and complex presentations for the company partners. Supported all design decisions with creative, strategic and business reasoning.
